

Brazilian Coffee for the UK Market

Supporting United Kingdom buyers with
quality focused sourcing and export coordination.

Arabica | Robusta | Specialty Coffees

Minas Gerais | Bahia | Espírito Santo | Paraná | São Paulo

Structured Sourcing

A3 Food & Beverage helps UK coffee buyers review Brazilian coffee options with greater clarity, control and commercial confidence.

We support the sourcing stage with lot selection, quality review, availability checks and clear next steps before commitment.

Where We Add Value

Lot Selection

Suitable coffee options based on buyer requirements.

Lot Review

Available lot details organized for comparison before commitment.

Origin Availability

Producer and supply availability checked across selected Brazilian coffee regions.

Commercial Alignment

Next steps, lot details and buyer requirements clarified before moving forward.

Brazilian Origins

Brazil offers a wide range of green coffee profiles across established producing regions from commercial Arabica and Conilon Robusta to selected specialty lots.

Our sourcing focus covers key Brazilian coffee regions through active producer relationships, storage connections and regional supply knowledge.

Minas Gerais

Broad Arabica availability and established coffee supply networks.

Bahia

Commercial and quality-focused Brazilian coffee options.

Espírito Santo

Key region for Conilon Robusta and export-oriented supply.

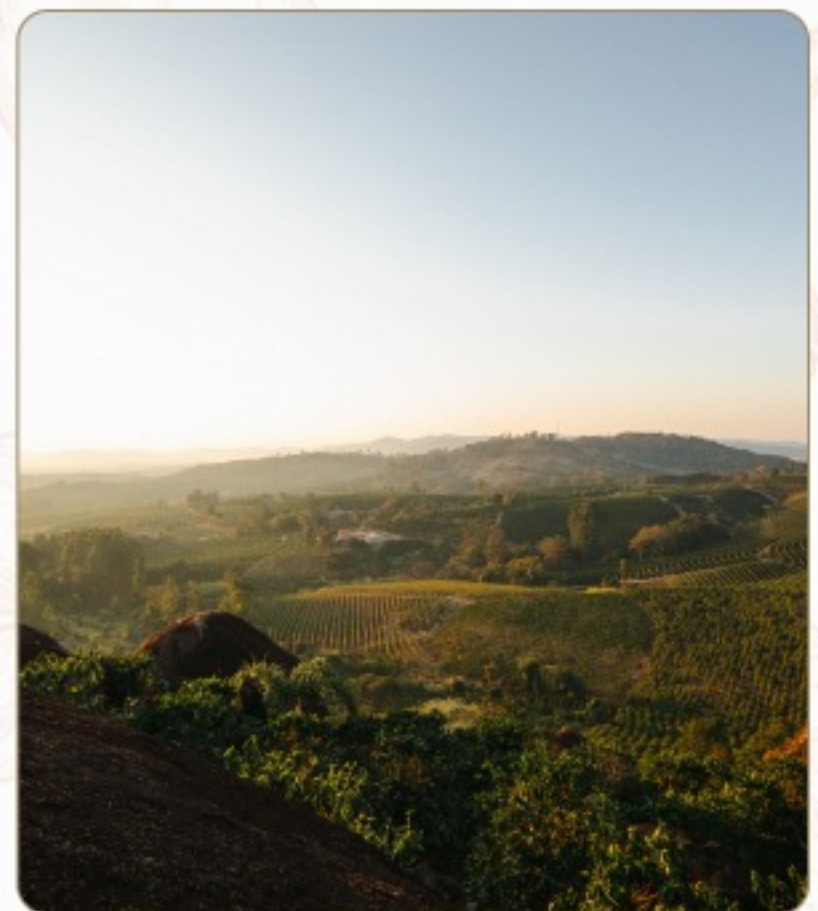

Paraná

Traditional coffee-producing region with selected Arabica opportunities.

São Paulo

Strategic trade, warehousing, and export movement hub.

Coffee Portfolio

Selected Brazilian green coffee profiles available for UK buyers.

01

Specialty Coffee

Selected lots with distinctive profiles where available.

02

Arabica Santos Fine Cup

Clean Brazilian Arabica profile for buyers seeking balanced cup character.

03

Arabica Santos Good Cup

Reliable Arabica option for consistent commercial supply.

04

Arabica Rio Minas

Traditional Brazilian profile with stronger character for blend applications.

05

Robusta Conilon

Brazilian Conilon Robusta options, including grades 7, 7/8 and 8.

Lot Quality

A3 Food & Beverage helps buyers review Brazilian coffee lots with clear lot level details before moving forward.

Available details may include cupping notes, physical analysis, screen size, moisture level, defect count, lot specifications and supporting reports where available.

Quality & Lot Information

Cupping Notes

Flavor profile and sensory information shared where available.

Physical Analysis

Screen size, moisture level, defect count, and bean condition details.

Lot Specifications

Clear product information to support comparison between available coffee options.

Lot Records

Available lot-level information shared to support traceability, comparison, and buyer review.

From Farm to Port

Complete Export Coordination

A3 Food & Beverage supports Brazilian coffee exports through a structured operation flow from origin handling to port movement.

We help UK buyers move forward with clearer shipment information, organized documentation and consistent follow-up throughout the export process.

Export Operation Scope

Origin Handling & Loading Follow-Up

Lot confirmation and loading follow up across selected Brazilian coffee regions.

Warehousing & Quality Control

Storage coordination and standardized pre-export quality checks with independent classification support where required.

Export Documentation & Certificates

Required certificates, shipment documents and export paperwork coordinated through the supply process.

Port Logistics & Freight

Coordination with transport, port teams and freight partners to support smooth international shipment operations.

Tracking & Delivery Follow-Up

Shipment progress followed from Brazilian origin through port movement and onward delivery.
